🪪 Summary

Dynamic Web Developer with a unique background in Agriculture and Agricultural Economics from Aristotle University of Thessaloniki, now specializing in front-end technologies. Started my tech career in 2021, quickly advancing from building WordPress and Magento 2 sites to developing complex web applications using React frameworks and Javascript. Currently enhancing my skills in backend development to achieve my goal of becoming a full-stack developer. Known for my strong problem-solving abilities, adaptability, and passion for continuous learning in fast-paced environments.

🎨 Skills

Programming Languages & Frameworks
React | NextJS | Gatsby | Javascript | Typescript | Node | HTML | CSS | TailwindCSS | Bootstrap

E-Commerce Platforms
Shopify | Magento 2 | Wordpress
